SUMMARY

Highly skilled Senior Backend Developer with a proven track record of success in designing, developing, and optimizing high-performance backend systems. Expertise in JavaScript, Node.js, databases, and cloud technologies. Seeking a challenging role where I can contribute to innovative projects and drive technical excellence.

SKILLS

- **Programming Languages:** JavaScript (ES2020+), TypeScript, Python, Ruby, Rust, PHP
- **Frameworks:** Node.js (Express, Fastify, Koa, NestJS), Vue.js (Vuex)
- **Databases:** MySQL, PostgreSQL, MongoDB, MSSQL, SQLite, Redis
- **Cloud Technologies:** AWS, Google Cloud Platform (GCP), Azure (Optional: Add if you have experience)
- **Tools:** Git, Docker, Kubernetes (Optional: Add if you have experience), npm, Yarn
- **Other:** Linux, Unix administration, CSS (CSS3, SASS, Bulma)

EXPERIENCE

Senior Backend Developer, Shift4

2022 – Present

- Led the integration with 5+ third-party and internal services, ensuring 99.9% uptime and smooth data flow using RESTful APIs.
- Resolved 50+ critical bugs, optimized code by 20%, and improved query performance by 40%.
- Integrated observability solutions (Grafana/Prometheus, New Relic, DataDog), reducing incident response time by 50%.

Node.js Developer – Team Lead, NDA

2019 – 2022

- Developed and maintained 3+ data crawlers, processing 1TB+ of data monthly.
- Led a team of 3 developers to develop and maintain critical calculation services, reducing processing time by 25% and improving data accuracy by 15%.
- Managed 10+ microservices, increasing data accessibility by 20%.

Node.js Developer, Diceus

2018 – 2019

- Engineered a backend system for financial data integration, improving data processing efficiency by 30%.
- Modernized frontend using Vue.js, reducing page load time by 50%.

- Implemented a real-time car bidding service with Vue.js and Vuex, facilitating 10,000+ bids daily.

Full Stack JavaScript Developer – Adtarget.me, NDA 2013 - 2018

- Developed and maintained a retargeting system, enhancing data collection by 35%.
- Integrated a banner designer, increasing campaign creation speed by 80%.
- Supported 30+ shop tracking scripts, improving data accuracy by 20%.
- Analyzed XML/JSON product imports, improving import success rate by 50%.

PHP Developer, BlueConsaltancy 2012 – 2013

- Developed a security report generation system adhering to Lithuanian ISO standards.
- Implemented features for generating customized management reports.
- Developed custom Drupal hooks, enhancing overall system functionality.
- Created a Java plugin for automated working hours calculation.

Web Developer, Amikom 2011 – 2021

- Administered and supported website functionalities, ensuring 99.9% uptime.
- Optimized website performance, reducing load times by 40%.

EDUCATION

OWASP Dec 2024 – Dec 2025

- OWASP 2021 Security Certificate

MongoDB University June 2016

- [MongoDB Certificate](#), MongoDB for Node.js Developers

University of Bialystok June 2012

- B.A. of Science in Computer Engineering

PROJECTS

- TensorFlow.js Training in Node.js Codelab
- [Tensor Weather](#)

HOBBIES

Book reading, sports, and travel.
